www.tmcraceengineering.com
matt@tmcraceengineering.com

Option 1

Full Arrive & Drive

Option 2

Race Support

Option 3

Setup & Driver
Development

Option 4

Awning Space

www.tmcraceengineering.com
matt@tmcraceengineering.com

Option 1

Full Arrive & Drive

What is it?

A fully supported service where all you need to focus on is driving

Who is it for?

The driver who does not have the time, space or knowledge to store, prepare and maintain their car for a race weekend, or who prefers to focus their attention solely on driving and not on car preparation

www.tmcraceengineering.com
matt@tmcraceengineering.com

Option 2

Race Support

What is it?

All the benefits of Full Arrive and Drive, without the pre race preparation work

Who is it for?

The driver who is able to prepare their car in advance and would prefer to dedicate their time at the track to driving, rather than spannering

www.tmcraceengineering.com
matt@tmcraceengineering.com

Option 3

Setup and Driver
Development

What is it?

Access to a driver coach & data engineer as well as trackside setup for the car

Who is it for?

The driver who is happy to prepare and run the car themselves and wants the benefit of professional coaching and car setup at the circuit

www.tmcraceengineering.com
matt@tmcraceengineering.com

Option 4

Awning Space

What is it?

Space alongside the team for advice and essential work

Who is it for?

The driver who can run the car for a full race weekend and wants the security of a team behind them in case of accident repair or other major work

www.tmcraceengineering.com
matt@tmcraceengineering.com
